Sole Island Agent for the Isomertre Lenses.

LOVE BUILDING (upstairs) - - - FORT ST.

WATER IN MILK

Further Quest of the Chief Food Inspector.

A STANDARD ESTABLISHED

Board of Health Proceeding in earnest—Typhoid fever in Hilo. Reports From Hospital.

At the Board of Health meeting yesterday afternoon the usual reports were read and approved.

Food Inspector Shorey reported that in order to get a proper standard of pure milk he had, in company with Deputy Marshal Chillingworth, visited one of the dairies and had obtained a sample for analysis. He recommended for an official standard 11.5 per cent solids and 2.2 per cent butter fat. Action was deferred on the matter until further effort had been made in the prosecution of vendors of diluted milk.

Moved and carried that the Hilo hospital physician be requested by the secretary to furnish a full monthly report with a diagnosis of all the cases.

A communication from Sheriff Andrews, under date of May 28, was read. He reported that the fever epidemic was still raging in the city. It is widespread, affecting all classes. The same doubt among the physicians whether or not the fever is the genuine typhoid.

A motion was made and carried that the secretary be instructed to write to Dr. Moore, of Hilo, for a full report regarding the fever epidemic.

Forms of tenders for various supplies were adopted and ordered published.

Dr. Wood, acting for Dr. Day, who was absent, presented a statement in regard to the bills of health as they are received from San Francisco. The Government, he said, is employing every means in its power to guard against the appearance of the plague or smallpox, so far as the Orient is concerned. Physicians are stationed in China and Japan and the passengers coming from that way are thoroughly inspected by the local port physician. But the bill of health of steamers coming from San Francisco is apparently drawn up without any investigation in regard to the prevalence of contagious diseases. Dr. Wood then cited instances where authoritative news regarding smallpox cases appearing in San Francisco had been published, but no notice had been taken of them in the steamer's bill of health. It seems right, continued the doctor, that the Consul General at least mention the fact and state whether or not the disease had actually appeared in the city, in order that more drastic measures might be put into force at this end to guard against it.

After some discussion, in which all the members coincided with the views expressed by Dr. Wood, the matter was put into the hands of President Cooper. The Board then went into executive session. The following were present: President Cooper, Secretary Wilcox, C. B. Reynolds, G. W. Smith, E. C. Winston, Dr. Wood, L. D. Keillip, Dr. Emerson.

Want Certificates.

A petition to the local government from the master mariners now employed in the inter-island traffic, praying that certificates be issued to them, will be presented in the near future. It was thought that the United States shipping laws would be extended to Hawaii before this but as such a thing has not as yet been consummated by Congress it may as well be anticipated by giving such certificates of service as the men who have been masters and mates of island craft for many years most certainly deserve. Some of the captains of the local steamers have been sailing between the island ports for some twenty years and they claim

that they should not be compelled to appear before United States inspectors to pass upon their efficiency.

The Triangle Club.

There was a good attendance at the meeting of the Triangle Literary Club at the Y. M. C. A. last evening. A long program had been arranged, but on account of a number who were to take part being absent it was cut down considerably. It was as follows:

Flute solo.....Joseph J. Dias
Mandolin solo.....J. E. Davis
Monologue.....W. J. Madera

Special mention should be made of the last number, as it was first class, and received loud applause. The debate on cremation was postponed until the next meeting on account of the absence of Charles Frazier.

WHITE MEN FOR MAUI.

Ewa Experiment to Be Tried at Spreckelsville.

Jas. B. Castle and W. J. Lowrie, who were the principals in establishing the colony of white cane farmers at Ewa plantation, this island, are actively engaged in an effort to secure a similar settlement as a feature of the Spreckelsville, Maui, sugar estate. Mr. Castle has been a worker along the line here indicated for a long time. For many years he has pronounced and advocated the theory of opportunity here for white men in the growth of cane. Mr. Lowrie, as manager of Ewa, from which position he went to the charge of Spreckelsville, made a success with co-operative cane growing under contracts with Portuguese and Chinese and just before he left Ewa installed the colony of white people brought from California and still on the estate. A number of men here who are deeply interested in securing settlers from the States for the islands are willing to operate on the basis that colonizing or co-operation can succeed only on such productive plantations as Ewa and Spreckelsville and others of like grade. It is also conceded that the white men will to some extent employ coolies, as is now being done in the Ewa colony. But with these drawbacks or what may be called discouraging features, men who have interested themselves in the labor problem are in some cases satisfied to get the white people here and identify them with the sugar industry and with small farming. It is believed that some white people will be brought from the coast to Spreckelsville within a very few months. In reviewing the history of this estate it is found that it was established with white labor, some of the men best known in the islands today having come down here under the encouragement of Claus Spreckels to assist on the great Maui estate.

Supreme Court.

There are thirty-two cases on the Supreme Court calendar, which begins next Monday morning. The sessions will be held on the lower floor, owing to the sprained ankle of the Chief Justice. Among the cases is the important Queen's Hospital matter, relating to Dr. Rooke's will. The disbarment proceedings of Attorney Humphreys against Attorney-General Cooper will also come up. C. S. Desky's suit against the Minister of the Interior in regard to the Orpheum license is on the calendar.

The Orpheum.

The change of program at the Orpheum last night brought out some good features. "The Coming Man," the new farce, was applauded to the echo. Dale and Darling again made a strong hit in their dances. Howard's act is well rendered. Post and Ashley have a new budget of funny specialties.

The same bill will be put on tonight.

AND STILL THEY COME.

An immense shipment of dry goods has just been received by L. B. Kerr and are in shape now and ready for inspection. All are cordially invited.

MAPS, MAPS, MAPS, of Honolulu, just issued by the Hawaiian Gazette Co., von Holt Block, King street. Secure one before they are all gone. 50

FOR THE FOURTH

Citizens Agree It Shall Be Made a Glorious Day.

AN ENTHUSIASTIC MEETING

Fireworks—Parade—Ball—General and Sub-committees Named—Speeches—To Work at Once.

An 1899 Fourth of July celebration for Honolulu is assured. At the meeting of representative men of the city last evening in the Drill Shed it was so decided. The vote was unanimous. All thought that of all years this should be the one when the nation's natal day should be made a grand event. Nothing will be lacking in the celebration. There will be something to appeal to all tastes. A parade, literary exercises, sports, fireworks and a grand ball, all will go to make up the fete.

The meeting was called to order in the Drill Shed at 7:30 o'clock. Geo. W. Smith was appointed chairman and B. H. Wright secretary. On motion the chair was empowered to appoint a general committee of twenty-one, this committee to have power to add to its number. This committee as it now stands entire is as follows:

G. W. Smith, chairman; B. H. Wright, secretary; W. O. Smith, treasurer; J. A. Kennedy, C. J. McCarthy, W. E. Fisher, J. B. Atherton, J. W. Pratt, C. J. Falk, P. C. Jones, J. H. Soper, C. L. Crabbe, G. W. R. King, L. T. Kenake, T. McCants Stewart, F. L. Hoogs, T. B. Murray, C. A. Graham, J. K. Brown, D. L. Naone, J. K. Kaulukou, W. C. Achi, Samuel Parker, J. W. Jones, Geo. F. McLeod, W. R. Farrington, W. H. Hoogs, A. V. Gear, A. M. Brown, Geo. Ashley, W. P. Boyd, Consul W. Haywood, Commissioner H. M. Sewall, Commander Merry, Col. Mills, J. H. Fisher, Theo. Hoffman, E. R. Stackable, J. E. Grossman.

In response to a general call W. O. Smith addressed the meeting. In a few stirring remarks he told why Honolulu should celebrate. He dwelt upon the glorious future of the islands and the necessity of a go-ahead, progressive spirit. The age for slumberism is past. The shipping and commerce is increasing steadily, but the real advance is yet to come. As Lord Beresford said, there is no reason why Honolulu should not be not only one of the great, but also one of the important ports of the world. The islands are now a part of the United States. This is the first Fourth of July that this can be said. By all means a celebration should be had.

J. K. Brown, United States Chinese Inspector, said that the great thing Honolulu and the islands needed was advertising. A monster Fourth of July celebration would tend to let people know where we are and that the Hawaiian Islands form a part of the United States.

The general meeting then adjourned. The general committee members remained to transact further business. J. A. Kennedy wanted to know whether or not it was intended to have a parade. The cost of this feature is quite an item. Besides the time left is short and it requires much labor to prepare a parade.

C. J. McCarthy thought that by all means there should be a parade. It is a good educator for the children, and a Fourth of July celebration without a

parade is not complete in the eyes of most people. If anything should be sacrificed let it be the ball.

J. W. Pratt was in favor of a ball. Most of the younger set would be disappointed if the ball were omitted. The best way would be to have everything. G. W. R. King agreed with Mr. Pratt, and thought it best to have all the features. Sufficient money could be easily obtained.

W. O. Smith thought it wise to have everything, but still the matter should not be overdone. The fireworks are a necessary feature as they add greatly to the enjoyment of the great mass of people. The parade also should be had. He believed with Mr. King that there was plenty of money available for all purposes.

A discussion then ensued regarding fire works. It seems that it will be impossible to get a proper display in time from San Francisco. However, there is chance that this may yet be done. There is a comparatively small amount already on hand in the city. This includes a few pieces left over from last year. On motion it was finally decided that J. A. Kennedy and C. A. Graham be appointed a committee to investigate the local supply and the chance of getting more from San Francisco before the Fourth. This committee is to report at a meeting to be held at the Chamber of Commerce at noon tomorrow.

The following committees were then appointed:

Literary—W. R. Farrington, J. A. Kennedy, H. M. Sewall, J. K. Brown, T. McCants Stewart, J. L. Kaulukou, F. L. Hoogs.

Finance—W. O. Smith, T. F. Lansing, P. C. Jones, J. B. Atherton, Andrew Brown and J. H. Fisher.

Ball—Dr. M. E. Grossman, W. P. Boyd, C. J. Falk, J. H. Soper, Will E. Fisher, Samuel Parker, C. A. Graham, B. H. Wright, W. C. Achi, Commander Merry.

Decoration—G. W. R. King, Theo. Hoffman, C. L. Crabbe.

Parade—J. W. Jones, C. J. McCarthy, W. G. Ashley, C. L. Crabbe.

Sports—C. J. McCarthy, D. L. Naone, W. H. Hoogs, T. B. Murray, C. L. Crabbe.

Salutes—Col. Mills, Geo. F. McLeod, C. J. McCarthy.

BICYCLE THIEVES.

The Dealers Propose to Protect All Owners.

The local Cycle Board of Trade has begun an earnest crusade against bicycle thieves. The latest act of this kind was when a short time ago a man rented a wheel from E. O. Hall & Son and never returned it. The party was arrested a few days ago, and yesterday was tried and sentenced to six months' imprisonment. This is one of many instances where dealers have been victimized. A number of other cases have occurred where wheels have been stolen from private individuals.

Yesterday the representative bicycle men met and decided to take active steps toward the suppression of this form of rascality. It was unanimously voted that a standing reward of \$25 be offered for evidence leading to the conviction of any bicycle thief. Also that the Cycle Board of Trade pay all expenses incurred in proceedings when the matter has been brought before their notice. The dealers desire the co-operation of the public in their efforts. All thefts should be reported to either D. E. Whitman or J. W. Harvey.

To Aid California.

The Board of Agriculture met F. A. Rice, of the California Board yesterday morning. On motion by Wray Taylor the resolution was adopted giving to Mr. Rice promises of all possible assistance in his collection of beneficial insects of these islands. He is to be aided in the work by Professor Koschele.
